

Join our “Paper Hearts” Campaign to raise awareness
for congenital heart disease (CHD) and fund research!
It will cost you nothing and can help change the lives of children!

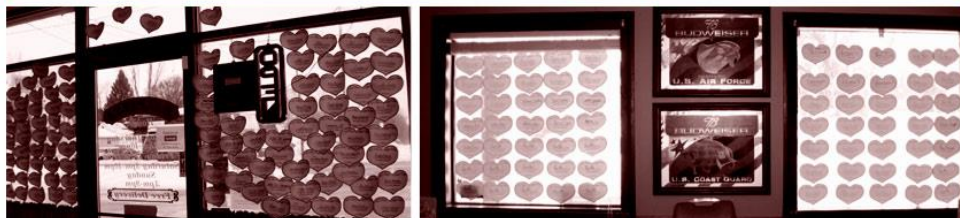

We ask you to sell our hearts to willing patrons for \$1 and hang them in a visible area at your location for other patrons to see, hence raising awareness. The campaign runs from February 1-28, 2018. Faith’s Angels will pick up the unsold hearts and proceeds within a week of the end of the campaign.

Congenital Heart Disease Awareness Week - Feb. 7-14

Did you know in the U.S.A.
a child is **BORN** with
a heart defect **EVERY 15 MINUTES?**

Have A Heart? Change A Child's!

Have A Heart? Change A Child's!TM

Why should you care about children with heart defects? Nearly 1 in 115 births will have a heart defect. This year approx. 40,000 babies will be born with heart defects and 4,000 won't live to see their first birthday.

Of every dollar the government spends on medical funding only a fraction of a penny is directed towards heart defect research.

Faith's Angels Inc. is a local non-profit organization that focuses on raising awareness for heart defects and money for research. From donations we receive 80% goes directly to research, nearly double what national organizations dedicate for research!
